- Chinese - basic

ADDITIONAL SKILLS

- Software: Autocad, Sketchup, Photoshop, Indesign, Illustrator, Archicad, Artlantis Studio, Revit
- Experience in public speech, including preparation of presentations (Powerpoint, Prezi, Adobe Premiere)

PERSONAL INTERESTS AND MOTIVATION

With an education in 3 languages and constant contact since childhood with a multitude of different nationalities under the same educational institution (EEbI), I am used to foreign cultures and working in different languages. I feel very comfortable working in teams, discussing and organizing tasks.

This made me very curious about travelling and working abroad. I am very interested in building up my career through various work experiences in different locations; I hope that through those different experiences I will develop my own creativity and the skills to set up a good working adaptability.

Among all my hobbies, I organize events for architecture students, I like to go swimming both as an exercise and relief and have a passion for ancient classical history.

NOTABLE INFORMATION

- Organizer and Associate of "DOCEXDOCE European Competition for Architecture Students" (2017 - 2019)
"Co-organizer of edition 2018 and member of the final jury"
